Dear Ms. Diamond:

As we explained last week, on 10 Dec 1993 a contractor uncovered soil that appears to be contaminated with waste oil in DRMO Storage Yard No. 3. Our plan is to determine what the substance is and then make a determination on what to do with the "contaminated soil".

Please review the enclosed plans and return your comments to us by 12 Jan 1994. If you have any questions please call Chrisa Mitchell at 714-726-6607.

Sincerely,

WAYNE D. LEE
Environmental Director
By direction of
the Commanding General
